- Passed a motion for support

RESOLUTION-2021-289

Councillor Jamie Armstrong made a motion that: Whereas the Provincial government has introduced the Ontario Vaccine Certificate program in an effort to increase vaccine rollout; And Whereas this program has no specified end date or specified criteria to reach before moving away from the program and opening Ontario for all;

And Whereas this program creates undue pressures on businesses, volunteer groups and municipalities to comply with the policy;

And whereas the Ontario government has recognized the risks to private citizens and workers in its guidance document with the implementation of this program;

And Whereas this program seeks to penalize businesses/volunteers and municipalities that do not comply with the monitoring of vaccine status;

And Whereas the vaccine is a proven solution to lessen the effects of Covid 19 and is approved by Health Canada.

Now Therefore be it resolved that the provincial government re-examine its stance on encouraging the covid 19 vaccine to the unvaccinated by implementing consequences on those that have chosen not to do receive the vaccine (medical exemptions aside) by placing monetary fines if you are diagnosed with covid 19 and are not vaccinated and need hospitalization in the midst of the national pandemic.

And be it further resolved that the Ontario government put an end date/percent vaccinated on the current certificate program.

Councillor Wayne Deans seconded the motion.
